## PROJECTS

---

### [Aquarium Management System](#)

*Java, Spring Boot, ReactJs*

- Built a webservice for aquarium owners to track water test results, water changes and fish information.
- Added a frontend using ReactJs to neatly display the information.

### [Discount College Stuff](#)

*HTML, CSS, JavaScript, ReactJs*

- Built a web app to make it easy for FIU students to find out about and get access to the free resources offered by FIU.
- Over 550 people have used the site since publishing it.
- Gave students the ability to get email notifications when new resources are added.
- Deployed using Google Firebase.

---

## EXPERIENCE
